Farm for the Future

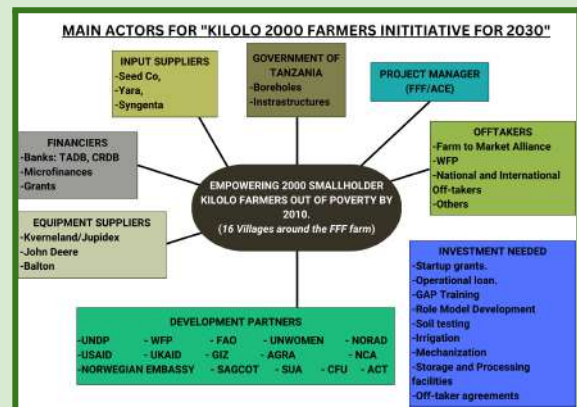

AGRONOMIC FOR
COMMUNITY EMPOWERMENT

Weekly News 14/2024.

April. 08th 2024.

FFF Meeting with the new Regional Commissioner of Iringa.

We had a fantastic meeting with the new Regional Commissioner of Iringa Hon. Peter Serukamba together with the Regional Administrative Secretary Hon. Doris Kalasa at the Iringa regional office. After a good presentation of the farm and our community empowerment programs, they were very impressed with the progress we had made and they agreed to provide us with the necessary resources and support to ensure our continued success. They also thanked us for the positive impact we are making in the local community. We look forward to a fruitful partnership in the years to come.

A regional commissioner described the project as a **"Game Changer"** when we presented a new path to success for 2000 smallholder farmers.

A Fruitful partnership with Sokoine University of Agriculture (SUA)

We were thrilled to have a group of 11 talented students immersed themselves in the world of farming at our esteemed farm. Over the past 5 weeks, these bright minds have delved into various aspects of agriculture under the guidance of our farm experts. They have received hands-on training on modern farming machinery, maize seed production while exploring the intricacies of potato seed production. As this enriching program draws to a close, we extend our heartfelt congratulations to these budding agri-preneurs as they embark on the next chapter of their academic journey at SUA University. The knowledge and experiences gained during their time at our farm will undoubtedly serve as a solid foundation for their future endeavors in the field of agriculture.

Wishing them all the best as they continue their pursuit of excellence and innovation in agriculture!

Farm Updates

The FFF Farm Manager Mr. Nyabanga, the Deputy Farm Manager Madam Grace together with the FFF chairperson took a farm tour to appreciate the progress of crops in the field.

Grading and packing potato seeds on going.

Farm For the Future & Agronomic for Community Empowerment

“A unique model to end poverty with Commercial farming and Community Empowerment on the same arena”
